Request Information:

Please answer the following questions as completely as possible. Failure to outline fully the situation by answering these questions could cause unnecessary delay in evaluating your appeal. Additional pages may be attached if necessary.

1. Will any undue hardship result if a variance is not granted? Yes No

If yes, please explain: This existing structure is in need of repair from age and weather events. This is negatively impacting my property value + risking my vehicles to severe weather events.

2. If the variance is granted, describe the effect it will have upon traffic conditions and the public health, safety, convenience and welfare of the community. There are no ill effects to the community at large from granting this variance. The benefit is improved value + appearance of the property.

3. Completely describe the variance you are requesting. I want to remove an existing carport and replace it with a new structure. It will not be any larger than the existing carport + will be windstorm certified. 19.7 foot for front yard set back 8ft for depth. MY

4. Do similar conditions exist in the area? Explain. Yes, there are existing car ports on La Laja. Even the exact design I want to install.

5. Describe how the unique conditions or circumstances do not result from your actions. This is a simple replacement of an existing structure. This structure has aged with time + has suffered weather damage. MY

A completed variance application is due 30 days prior to the next Board of Adjustment meeting. Board of Adjustment meetings are held at noon on the third Wednesday of each month. At this meeting, a public hearing will be held. A public hearing notice must be published in the local newspaper (at least 14 days before the meeting) and a notice must be sent to all property owners within 200' of the property where the variance is being requested (the notice must be sent at least 10 days prior to the meeting).
